## **Financial Snacks, yummy!**

Starting this week, *StarBiz* presents a weekly column on financial tips written by a number of certified financial planners. Their Monday offerings will give readers an insight into a wide range of financial issues that matter to the ordinary person. They will present their advice in a friendly and easy-to-digest manner. Today's maiden article is by Joyce Chuah who has been in the industry for 15 years. As a bonus, our associate editor Hafidz Mahpar will unveil his artistic skills in the illustrations that accompany each article. > **See page 4**
